How It Works

Post Requirement

Provide required details to create a rich project. Seek our help if required

Evaluate Bids

Make your selection basis the technical & commercial aspects of the bids received

Select Vendor

Finalize project after connecting with selected vendor. Change if required

Begin Work

Your advance payment is passed to supplier only basis your approvals

	Freelancer	Agency	
Quality	**	***	Too many freelancers; finding good quality is a challenge. Agencies have a pool of talent & are rated by renowned independent bodies
Reliability	*	***	An Agency is a business house which mitigates risks associated with a single individual who may disappear miss deadlines or perform sub-optimally
Cost	***	***	In-demand freelancers charge higher rates ; while others may sometimes charge lower rates than agencies
Complex Projects	**	***	Projects which are of longer duration or which require more than one resource or skills are better done through agencies
Post-Project Support	*	***	Agencies have processes and teams for escalations & support which individual freelancers may not be able/available to provide

Benchkart Advantages

Advice

from defining your projects to seamless delivery

Selection

of right agencies through a 21 point assessment

Cost

Savings through commercial & technical bids

Security

of your data, payment, delivery & support

Great decision!

Every project is different. And it all begins with understanding what exactly do you want to get done.

Our consultants are trained to take inputs from you and help you create a project. A well defined project goes a long way in getting you the desired results.

- ☒ Yes I'm ok to be connected on phone (selected)
- ☐ No, I will post my requirement myself

Prefer time to call (Optional)

Your dashboard is where all the action is!
Look at all your projects, get the bids, exchange messages,
review & contract agencies and begin work - all through
your own dashboard.
